Expertise

Numerical modelling for applications in Meteorology and Climate

Work experience

From 18/12/2023 to today
employer

Research Scientist (FT)

ENEA - Italian National Agency for new technologies, energy and sustainable economic development, Roma (Italia)

Research activity on Regional Climate Model applications within the Climate modeling and impacts laboratory (SSPT-MET-CLIM), division "Models and technologies for the reduction of anthropogenic impacts and natural risks". Funds from "NATIONAL CENTRE FOR HPC, BIG DATA AND QUANTUM COMPUTING, Piano Nazionale di Ripresa e Resilienza (PNRR); Missione 4; Componente 2, "Dalla Ricerca all'Impresa"; NextGenerationEU (Decr. Dir. MUR n.3138 del 16122021)"

From 11/07/2022 to 30/11/2023
employer

Research Associate Scientist

United Nations Educational, Scientific and Cultural Organisation (UNESCO) at the International Centre for Theoretical Physics (ICTP), Trieste (Italy)

Research activity within the Earth System Physics (ESP) section. Contributing to EU H2020 XAIDA – eXtreme events : Artificial Intelligence for Detection and Attribution (n. 101003469, see list of Scientific Projects) and to development and applications of the new RegCM5 model (latest version with Moloch dynamical core) in particular for studies at the convection permitting scale (< 5km)

From 09/01/2022 to 08/07/2022
employer

Researcher - Scientific consultant

International Centre for Theoretical Physics (ICTP), Trieste (Italy)

Research activity within the Earth System Physics (ESP) section within EU H2020 XAIDA – eXtreme events : Artificial Intelligence for Detection and Attribution (n. 101003469, see list of Scientific Projects) and for development and applications of the latest non-hydrostatic version of the new model RegCM5 (Moloch core)

From 09/01/2017 to 08/01/2022
employer

Post Doc Researcher

International Centre for Theoretical Physics (ICTP), Trieste (Italy)

Research activity within the Earth System Physics (ESP) section for development and applications of the new non-hydrostatic version of the model RegCM4 for studies at the convection permitting scale (< 5km) within the Coordinated Regional Climate downscaling Experiment Flagship Pilot Study dedicated to convection (CORDEX-FPSCONV) and the Horizon 2020-European Climate Prediction System (EUCP, GA number: 776613) (see list of Scientific Projects)

From 11/2018 to 03/2019

Maternity leave

01/11/2015 – 31/12/2016
employer

Post Doc Researcher

Università degli Studi dell'Aquila/CETEMPS(*), L'Aquila (Italy)

Numerical and theoretical studies of complex orography meteorology. Principal investigator for the Meteorology work package in the RAISS M/0010/01/X23 project (see Scientific Projects section) for the implementation of a high resolution forecast system through the WRF model which has been part of a meteo-hydrological alert system at CETEMPS(*).

(*) Center of Excellence for integration of remote sensing techniques and numerical modeling for the forecast of severe weather

04/04/2016 – 08/06/2016
employer

Scientific consultant

International Centre for Theoretical Physics (ICTP), Trieste (Italy)

Research for model solution stabilisation within the "Development and testing of the new non-hydrostatic version of RegCM4" activity.

Partecipation to the "8th ICTP Workshop on theory and use of Regional Climate Models" as lecturer and laboratory activity assistant.

01/11/2013 – 31/10/2015
employer

Post Doc Researcher

Università degli Studi dell'Aquila/CETEMPS, L'Aquila (Italy)

WRF model applications in complex orography regions for investigation on severe weather processes peculiar of the alpine area.

Multi-model inter-comparison for severe event forecast over western Mediterranean and investigation of key factors mesoscale convective systems predictability through convection parametrized and convection permitting models.

01/07/2013 – 21/12/2013
employer

Scientific visitor

National Center for Atmospheric Research (NCAR), Boulder (Colorado, USA)

Research project in collaboration with **Dr. Richard Rotunno** for investigation on high impact weather events of the Hydrological cycle in Mediterranea Experiment (HyMeX 2012). The focus of the research activity has been the investigation of key processes for predictability of frontal convection by the WRF model. The study has been conducted by comparison to many conventional and non conventional experimental data (raing-gauges, RADAR, windprofilers, PBL balloons and dropsonds, etc.).

01/11/2011 – 31/10/2013
employer

Post Doc Researcher

Università degli Studi dell'Aquila/CETEMPS, L'Aquila (Italy)

Implementation of a high resolution topography and land-use database for model WRF and operational implementation within a weather alert system.

Research activity within the project IDRA-2 appointed by the National Civil Protection department (see Scientific Projects section) dedicated to investigation on the WRF model sensitivity to PBL schemes for turbulence in complex terrain regions.

Research activity within the METAWAVE project (N. ESTEC-21207/07/NL/HE) of European Space Agency (ESA) (see Scientific Projects section). Part of the research was dedicated to variational assimilation of Interferometric synthetic-aperture radar (InSAR) data in MM5 model, producing the first in literature study on this topic.

14/01/2011 – 14/07/2011
employer

Research Scholarship

Università degli Studi dell'Aquila/CETEMPS, L'Aquila (Italy)

Study on PBL parameterizations in models MM5 and WRF.

The activity contributed to the project IDRA-1 appointed by the National Civil Protection department (see Scientific Projects section).

Other professional experiences

05/09/2012 – 06/11/2012
employer

Weather forecaster and Experiment organizer

CETEMPS/Università degli Studi dell'Aquila, L'Aquila (Italy)

02/05/2011 – 31/12/2015 employer	Weather forecasting activity in the CETEMPS virtual operational center to launch alerts within the observational campaign SOP1 of HyMeX (2012, see Scientific Projects section). Local organizing committee member for SOP1 activities.
20/09/2010 – 31/12/2016 employer	Weather forecaster Himet S.r.l, L'Aquila (Italy) Forecast reports over Italy for the www.xmeteo.it web; for daily newspaper, for highway society "Strada dei parchi" (motorways A24 e A25) and for national "Società Autostrade" (A1, A14, A16, A30).
01/01/2009 – 28/02/2012 employer	Weather forecaster CETEMPS/Università degli Studi dell'Aquila on behalf of RAI (Italian radio-television), L'Aquila (Italy) Weather forecaster for the television program "RAI Buongiorno Regione Abruzzo" (channel Rai Tre) and radio program "Meteo Regionale" (channel Rai Radio Uno).

Education and training

28/03/2011	Ph.D. in Physics (XXIII cycle) University of L'Aquila, L'Aquila (Italy) Field: Atmospheric Sciences Advisor: Prof. Rossella Ferretti.
19/07/2007	Master Degree in Physics University of L'Aquila, L'Aquila (Italy) Grade: Summa Cum Laude Curriculum: Atmospheric Sciences Advisor: Prof. Rossella Ferretti
07/02/2005 – 06/05/2005	Trainee Abruzzo Region Civil Protection department/CETEMPS , L'Aquila (Italy) Weather Forecast and statistical evaluation: MM5 (before and after the new operational configuration).
International Schools 03/09/2007 – 07/09/2007	International Summer School on Atmospheric and Oceanic Sciences: Integrated ground-based observing system applications for Climate, Meteorology, and Civil Protection CETEMPS-University of L'Aquila, L'Aquila (Italy)
01/09/2008 – 04/09/2008	ECMWF Annual Seminar: Parametrization of subgrid physical processes European Centre for Medium-Range Weather Forecasts (ECMWF), Reading (UK)
30/08/2007 – 03/09/2010	International Summer School on Atmospheric and Oceanic Sciences: Climatic change and impacts on natural and protected areas CETEMPS-Universiy of L'Aquila, L'Aquila (Italy)
11/05/2015 – 21/05/2015	ECMWF Training course: Parametrization of subgrid physical processes European Centre for Medium-Range Weather Forecasts (ECMWF), Reading (UK)
23/05/2016 – 03/06/2016	8th ICTP Workshop on theory and use of Regional Climate Models

20/06/2016 – 24/06/2016

International Centre for Theoretical Physics (ICTP), Trieste, Italy

6th CNR-ISAC Summer School: Advances in severe weather analysis, models and observations

Istituto di Scienze dell'Atmosfera e del Clima (CNR-ISAC), Castro Marina (LE, Italy)

Personal skills and competences

Mother tongue

language(s)

Self-assessment European level

English

French

Understanding		Speaking		Writing
Listening	Reading	Spoken interaction	Spoken production	
B2 Independent user				
A1 Basic user	A2 Basic user	A1 Basic user	A1 Basic user	A1 Basic user

Common European Framework of Reference (CEF) level

Technical skills and competences

Advanced experience in **Implementation, validation and application of numerical models (MM5, WRF, RegCM)** for research study on weather, climate processes and climate change applications.

Advanced experience in statistical studies through **multi-model ensemble**

Experience in **integration and 3D variational assimilation** of experimental data (LiDAR, InSAR)

Large experience in elaboration and analysis of observations from conventional and unconventional source (weather station, RADAR, SODAR, LiDAR, sonic anemometer, radiosondes, weather balloons for boundary layer, satellite)

Computing skills and competences

Programming Languages: Fortran, Matlab, Shell (bash, sh, csh, ksh), Python, NCL, Perl (basic)

SO: Linux, Windows

Numerical models: MM5, WRF-ARW, RegCM

Other: LaTex, Office, GRADS, RIP4, CDO, VAPORgui

Other academic activities

Reviewer for the following scientific journals:

- * Indian Journal of Radio and Space Physics ISSN 0367-8393
- * MDPI - Atmosphere - open access journal ISSN 2073-4433
- * Annales Geophysicae (EGU journals) eISSN 1432-0576 | ISSN 0992-7689
- * Quarterly Journal of the Royal Meteorological Society ISSN 1477-870X
- * Journal of Geophysical Research-Atmospheres ISSN 2169-8996

Scientific Lecturer Ninth ICTP Workshop on the Theory and Use of Regional Climate Models, May-June 2018, Trieste

Master Degree assistant Advisor on behalf of prof. Ferretti: scientific and technical support for 2 Master degree thesis about numerical modeling.

Organizing committee:

- * Special Observation Period 1 (SOP1) of HyMeX 2012 (Hydrological cycle in Mediterranea Experiment) within operational alert center of CETEMPS (L'Aquila, IT)
- * Celebration of 50th anniversary from faculty of Physics foundation at the University of L'Aquila: "50 Anni di Fisica a L'Aquila", 2016
- * 7th International Med-CORDEX Workshop, 15th-16th, May 2023 (online form; <https://zenodo.org/record/7941434>)
- * EGU 2024 - CL3.1.1: Regional to local climate change, processes, impacts, and extremes, April 2024, Vienna (Austria), <https://meetingorganizer.copernicus.org/EGU24/session/49138>

Scientific Research Projects

Scientific investigator [other tasks]

METAWAVE: Mitigation of Electromagnetic Transmission errors induced by Atmospheric Water Vapour Effects funded by the European Space Agency (ESA) contact N. ESTEC-21207/07/NL/HE

IDRA 1: Integrazione di Dati di sensori e modelli per il Rilevamento Atmo-idro-sferico funded by the National Civil Protection Department.

IDRA 2: follow-up of IDRA-1.

HyMeX: HYdrological cycle in Mediterranean Experiment (not funded). [*Organizing committee of the virtual alert operational center (VOC) at CETEMPS*]

Pilot projects funded by Abruzzo Region Government: annual projects for new techniques development, support and collaboration to the operational activities for hydro-meteorological monitoring and alert of the Abruzzo regional division for Civil Protection (CFA).

RAISS M/0010/01/X23: collaboration between CETEMPS and HIMET s.r.l. for development of technological innovations for weather forecast products (still operational). Responsible for the working package Met-RAISS dedicated to Meteorology [*PI; Scientific manager*]

EURO-CORDEX: Coordinated Downscaling Experiment - European Domain (European branch of the international CORDEX initiative, which is a program sponsored by the World Climate Research Program (WRCP) to organize an internationally coordinated framework to produce improved regional climate change projections for all land regions world-wide).

Horizon H2020-EUCP (Horizon 2020-European Climate Prediction System; GA number: 776613): Develop an innovative ensemble climate prediction system based on high-resolution climate models for Europe for the near-term (1-40years).

Scientific Projects Proposal

Horizon H2020-XAIDA (XAIDA – eXtreme events : Artificial Intelligence for Detection and Attribution (n. 101003469): the project consortium gathers experts in machine learning, statistics and climate modelling, whose research will draw new methods to apply to recent high-impact events, examining links to climate change and predicting how they will change in the future.

PNRR-ICSC (NATIONAL CENTRE FOR HPC, BIG DATA AND QUANTUM COMPUTING): Build advanced Big Data and Quantum Computing infrastructure available for Research centres and companies, with flexible web cloud interfaces for data access.

Awards and fellowships

AXA The influence of water vapor on Mediterranean extreme weather events: improving forecasts - Axa Research Fund 2015 – Post Doctoral Fellowships [University of L'Aquila selection – 3rd place].

WVEMEW (Proposal number RBSI14RP3C) - The influence of water vapor budget on Mediterranean extreme weather events – Scientific Independence of young Researchers selection (SIR 2014) – [first selection: High level category; not funded].

RHEA 700387 Horizon 2020 - Response Holistic system for Agile responses to natural disasters (submitted in collaboration with other partners).

"**Young Scientist Travel Award EGU (2008)** by the X Plinius Conference Scientific Committee for Outstanding presentation titled "InSar, GPS data and high resolution simulations for studying the water vapor distribution in the urban area of Rome: A case study" among young scientists at the EGU X Plinius Conference on Mediterranean Storms, Nicosia (Cyprus), 2008

Young Scientists fellowship ISARS 2010 (International Symposium for the Advancement of Boundary-Layer Remote Sensing 2010)

Grant of University of L'Aquila assigned to young researchers that have obtained excellent results in the SIR 2014 (competition for Scientific Independence of young Researchers promoted by the Italian government).

Pierdicca N., Rocca F., Perissin D., Ferretti R., Pichelli E., Rommen B., Cimini N., 2011: Numerical weather prediction models and SAR interferometry: synergic use for meteorological and INSAR applications, SPIE (Intern. Society for Optics and Photonics) Remote Sensing Symposium, Proc. SPIE 8179, 817912 (2011); doi:10.1117/12.898756 (WOS:000297790000034)

2010

D. Perissin, E. Pichelli, R. Ferretti, F. Rocca, and N. Pierdicca, 2010: Mitigation of Atmospheric Water-vapour Effects on Spaceborne Interferometric SAR Imaging through the MM5 Numerical Model, Xi'an. Progress in Electromagnetics Research Symposium (PIERS 2010). (WOS:000305504900003)

Mario Montopoli, F.S. Marzano, E. Pichelli, D. Cimini, R. Ferretti, S. Bonafoni, D. Perissin, F. Rocca, N. Pierdicca: Water vapor integration methods to improve the quality of Synthetic Aperture Radar observations, ERAD 2010 - THE SIXTH EUROPEAN CONFERENCE ON RADAR IN METEOROLOGY AND HYDROLOGY, , Sibiu, Romania, 6-10 September 2010. (<http://www.researcherid.com/rid/G-7723-2015>)

Pichelli E., R. Ferretti, M. Cacciani, V.Ciardini, T. Di Iorio, A.M. Siani, 2010: Study of the planetary boundary layer of the urban area of Rome: High resolution model simulations and ground based observations. 15th International Symposium for the Advancement of Boundary Layer Remote Sensing (ISARS). (<http://www.researcherid.com/rid/G-7723-2015>)

2009

Pichelli E., R. Ferretti, D. Cimini, D. Perissin, M. Montopoli, F.S. Marzano, N. Pierdicca, 2009: Urban scale water vapour distribution study using spaceborne SAR interferometric data and high-resolution numerical weather prediction model, ESA Special Publication SP-676, Atmospheric Science Conference. (<http://www.researcherid.com/rid/G-7723-2015>)

Perissin D., Pichelli E., Ferretti R, Rocca F, Pierdicca N, 2009: The MM5 numerical model to correct PSInSAR Atmospheric Phase Screen, Fringe 2009: Advances in Sciences and Applications of SAR Interferometry Workshop. (<http://www.researcherid.com/rid/G-7723-2015>)

N. Pierdicca, F. Rocca, B. Rommen, P. Basili, S. Bonafoni, D. Cimini, P. Ciotti, F. Consalvi, R. Ferretti, W. Foster, F.S. Marzano, V. Mattioli, A. Mazzoni, M. Montopoli, R. Notarpietro, S. Padmanabhan, D. Perissin, E. Pichelli, S. Reising, S. Sahoo, G. Venuti, 2009: Atmospheric water-vapor effects on spaceborne Interferometric SAR imaging: data synergy and comparison with ground-based measurements and meteorological model simulations at urban scale, 3rd European Conference on Antennas and Propagation (EuCAP 2009). (WOS:000276522101327)

N. Pierdicca, F. Rocca, B. Rommen, P. Basili, S. Bonafoni, D. Cimini, P. Ciotti, F. Consalvi, R. Ferretti, W. Foster, F.S. Marzano, V. Mattioli, A. Mazzoni, M. Montopoli, R. Notarpietro, S. Padmanabhan, D. Perissin, E. Pichelli, S. Reising, S. Sahoo, G. Venuti, 2009: Atmospheric water vapor effects on spaceborne interferometric SAR imaging: comparison with ground-based measurements and meteorological model simulations at different scales, Proceedings of IEEE International Geoscience and Remote Sensing Symposium (IGARSS09) (WOS:000281054102214)

Conferences and seminars

I have presented more than 70 scientific presentations in conferences and workshops around the world, with 4 invited talks

Rome March 2024
